Entrepreneurs of the year are heading to represent Czech Republic in Monte Carlo

The victory in the most prestigious international competition EY Entrepreneur of year 2018 is heading into our company. The owners of Alcaplast company became the best entrepreneurs of the year in the Czech Republic. In June they are going to Monte Carlo, which will host the world final. The competition was established by Ernst & Young company in the USA in 1986.

EY Entrepreneur Of The Year in the Czech Republic™
2018 Award Winner

Marek Eben and František Fabičovic

Radka Prokopová, Věra Komárová, Simona Kijonková, Petr Šimůnek

Refined style – flush plates THIN M67x and M77x

The flush plate is the only visual element of the sophisticated installation system, which you can see on the toilet. Therefore it deserves your attention. We emphasize the timeless design, which determines the appearance of the toilet. The perfect operation and easy installation is a matter of course. Thanks to its flat profile stand out only five millimeters above the tiles. Two new series of flush plates with round design complement the square shapes of the previous range. It's only up to you to choose the right ring color.

- **Thin profile of just 5 mm**
- **Timeless design**
- **5 colour variations**
- **They are 100% compatible with all Alcaplast pre-wall installation systems**

APZ13 Fit and Go

All in one package. Shower drain APZ13 with two-sided grid DOUBLE

Set APZ13 Fit and Go includes shower drain, low odour trap APZ-S9 (81 mm) and new two-sided grid DOUBLE. Fit and Go provides solutions for fast and easy installation.

ALL IN PACKAGE

CHOOSE YOUR DESIGN

TWO-SIDED GRID DOUBLE

The grid DOUBLE gives the choice – either full stainless steel grid in the design SPACE or by simple rotating the grid INSERT for embedding tiles.

The final decision can be made even after installation of the shower drain without any construction modifications. Two-sided grid DOUBLE offers both grid versions in one.

P144
Combined odour trap for APZ-S9 for drain APZ13

SMART

NEW

Combined odour traps P143, P144 and P145

Among optional accessories for stainless steel shower drains you can also find the new combined odour traps for shower drains APZ13. For use in the premises, where is expected low utilization of the linear shower drain and thus risk of drying out of the water trap, such as recreation facilities, utility rooms, premises with seasonal use.
Combined odour traps P143, P144, P145 can be also used for stainless steel floor drains APV110, APV12 and APV130.

SMART

P143   **P144**   **P145**

If water does not flow through the waste, the flaps are closed and even when drying off the water trap they prevent odours passing from the sewer.
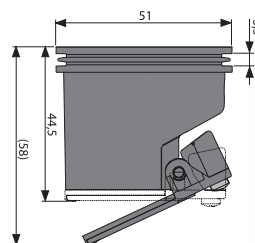

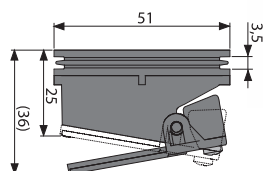

When water flows in, the flaps open and allow the water to drain out.

Pre-wall installation systems with top or front actuation AM118 Sádromodul, AM119 Renovmodul

15 YEAR GUARANTEE

COMFORT

INNOVATIVE CONNECTION OF WATER SUPPLY

Alcaplast construction team has prepared for you another innovation of the water connection to the cistern without additional construction work. You can easily and quickly install any water pipe system while maintaining the minimal installation depth of 170 mm.

SPACE SAVING SOLUTION

Top actuation elegantly solves the problem of WC modules with low building height where the open WC seat cover can overlap the flush plate.

WC modules AM118 and AM119 are **available in two construction heights of 850 or 1000 mm**. We offer the systems AM119 for building into solid walls and AM118 for dry build up.
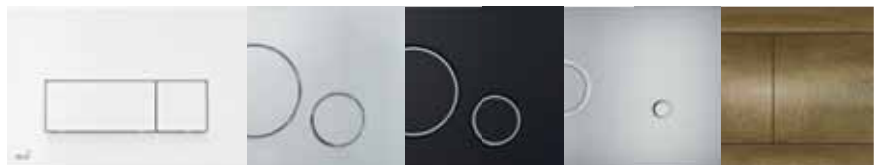

100% COMPATIBILITY OF FLUSH PLATES

Modules with the top or front actuation are fully compatible with all flush plates **ALCA**. When the flush plate is placed in the horizontal position you even more appreciate the **thin profile of models FLAT or THIN**.

INNOVATION

Innovation of pre-wall installation systems and flush plates

FAST AND ACCURATE INSTALLATION, SAVING TIME AND THE CORRECT SETTINGS

TEMPLATE FOR CORRECT FLUSH PLATE SETUP P146

The new template that is included in the flush plate packaging, will greatly assist in setting the flush mechanism screws to achieve the perfect functioning of flush plate.
The template will be available as a spare part.

USER COMFORT

FLUSHING MECHANISM SCREWS INCLUDED IN FLUSH PLATES PACKAGING

Installing the flush plate on pre-wall installation system is the final step in the installation. For this reason we have included the new flushing mechanism screws into the flush plates packaging to eliminate the possibility of loss during the installation works on the construction site.
In case of older inventory we send on request the missing flushing mechanism screws free of charge.
